

Central Park is an oasis for wildlife!

Whether you are an avid birder enjoying the spring migration, or a nature lover of wildflowers, wildlife, and birds, this trip will not disappoint!

The day will be spent exploring the central portion of Central Park, including the Ramble, Turtle Pond, Bow Bridge and the Loeb Boathouse where birders have enjoyed food, fellowship and recordkeeping of the day's events.

After April 20, deposit not refunded, after May 1 refund is
not available .*

Close by the birding areas are two areas of interest for non-birders. The Metropolitan Museum of Art, The New York Historical Society, and the American Museum of Natural History. With a little NYC cab or Uber experience one could also explore the butterfly gardens or Conservatory Gardens.

You never know what you might see while

What to expect:

The birds migrate through this area because of the weather and geography. Depending on what fronts are moving into the area, unique birds may get blown into the area.

Bring along a pair of binoculars, rain gear and walking shoes/boots. This is a great opportunity for experienced and novice birders to experience vast numbers of birds!

You may choose to bring your own lunch so that there is no time wasted waiting in lines. But you can also choose to take in the flavor of Manhattan and leave Central Park for a bite to eat.

YORK AUDUBON SOCIETY MISSION

The purpose of the York Audubon Society is to:
(1) promote an appreciation of the wonder, beauty and variety of nature;
(2) to promote a better public understanding of all forms of life and the life support systems of air, land, and water and their interrelationships; and
(3) to foster a recognition of the need to protect wildlife, habitat, and natural resources and to use and manage natural resources wisely. Think about joining!

You do not have to be a member to participate on this trip.

Hone up on your ability to recognize the field markings of the birds on the sightings list on Birding Bob's newsletter/blog. Check into a nice pair of binoculars, practice with them ahead of time.
