

YORK AUDUBON SOCIETY

www.yorkaudubon.org

UPDATE - August 2020

Greetings from the York Audubon Society. We hope you are keeping healthy during these troubling times. Due to the fact that we cannot meet in person right now at chapter meetings, **email is the new way we will be connecting with you.** Please let us keep talking to you by sending your current email address to:

sherrylookofsky@comcast.net

in order to receive important information about York Audubon Society. We will not share the email

address with anyone and we will not send you more than the newsletter, calendar of events and York Audubon activities. We are also hoping to offer some Zoom and/or Facebook programs, and will post more details about that on our website (www.yorkaudubon.org).

We are committed to ongoing in-person events to keep our members updated on the latest happenings at our local birding hot spots. We plan a series of field trips to nearby locations to enjoy the beauty of our local natural areas. Each outing will be limited to 10 participants. You must call the leader of each trip to register. If you would like to suggest an area to visit or would be willing to lead a field trip, and would like to get it on the schedule, please contact Sherry Lookofsky 717-880-6644 or e-mail sherrylookofsky@comcast.net Check out our website www.yorkaudubon.org for details of planned trips and any further suggestions for approved Covid guidelines. We look forward to seeing you on our outings.

YAS would like to assure you our popular bird seed sale will be taking place this Fall. Details are still being worked out. Check our website (www.yorkaudubon.org) for details on this upcoming event.
